The Cultural CORE

How Employee Resource Groups create incredible value.

In today's dynamic and diverse workplace, Employee Resource Groups (ERGs) have emerged as powerful drivers of cultural transformation. Join us for an engaging and enlightening keynote session as we delve into the four key components that make up the Cultural CORE of ERGs.

"C" stands for Culture-Shifting, where we explore the essence of culture and how ERGs play a pivotal role in fostering an inclusive and thriving environment throughout the organization.

"O" represents Opportunity. From acting as a springboard for professional growth to providing a safety net of support and sponsorship, ERGs empower people to activate their full potential.

"R" focuses on ROI (Return on Investment). ERGs drive real outcomes and results. They can transform organizations in ways that matter to your people, your teams and your business.

Finally, "E" centers Energy. ERGs can help protect their members from burnout and maintain the energy necessary to focus on what matters most.

You'll leave this session inspired and equipped to support ERGs and their members as they influence and drive transformative change within your organization.
